

YOUR CUSTOMS BROKERAGE AND LOGISTICS CONSULTANCY SPECIALIST

A SIMPLIFIED ONLINE TRACKING TOOL!

W2C is launching a simplified online tracking tool!

This user-friendly online tracking system will improve access to PARS, PAPS and WEB SHIPMENT. What's more, you can now enjoy **an integrated** COURIER service platform.

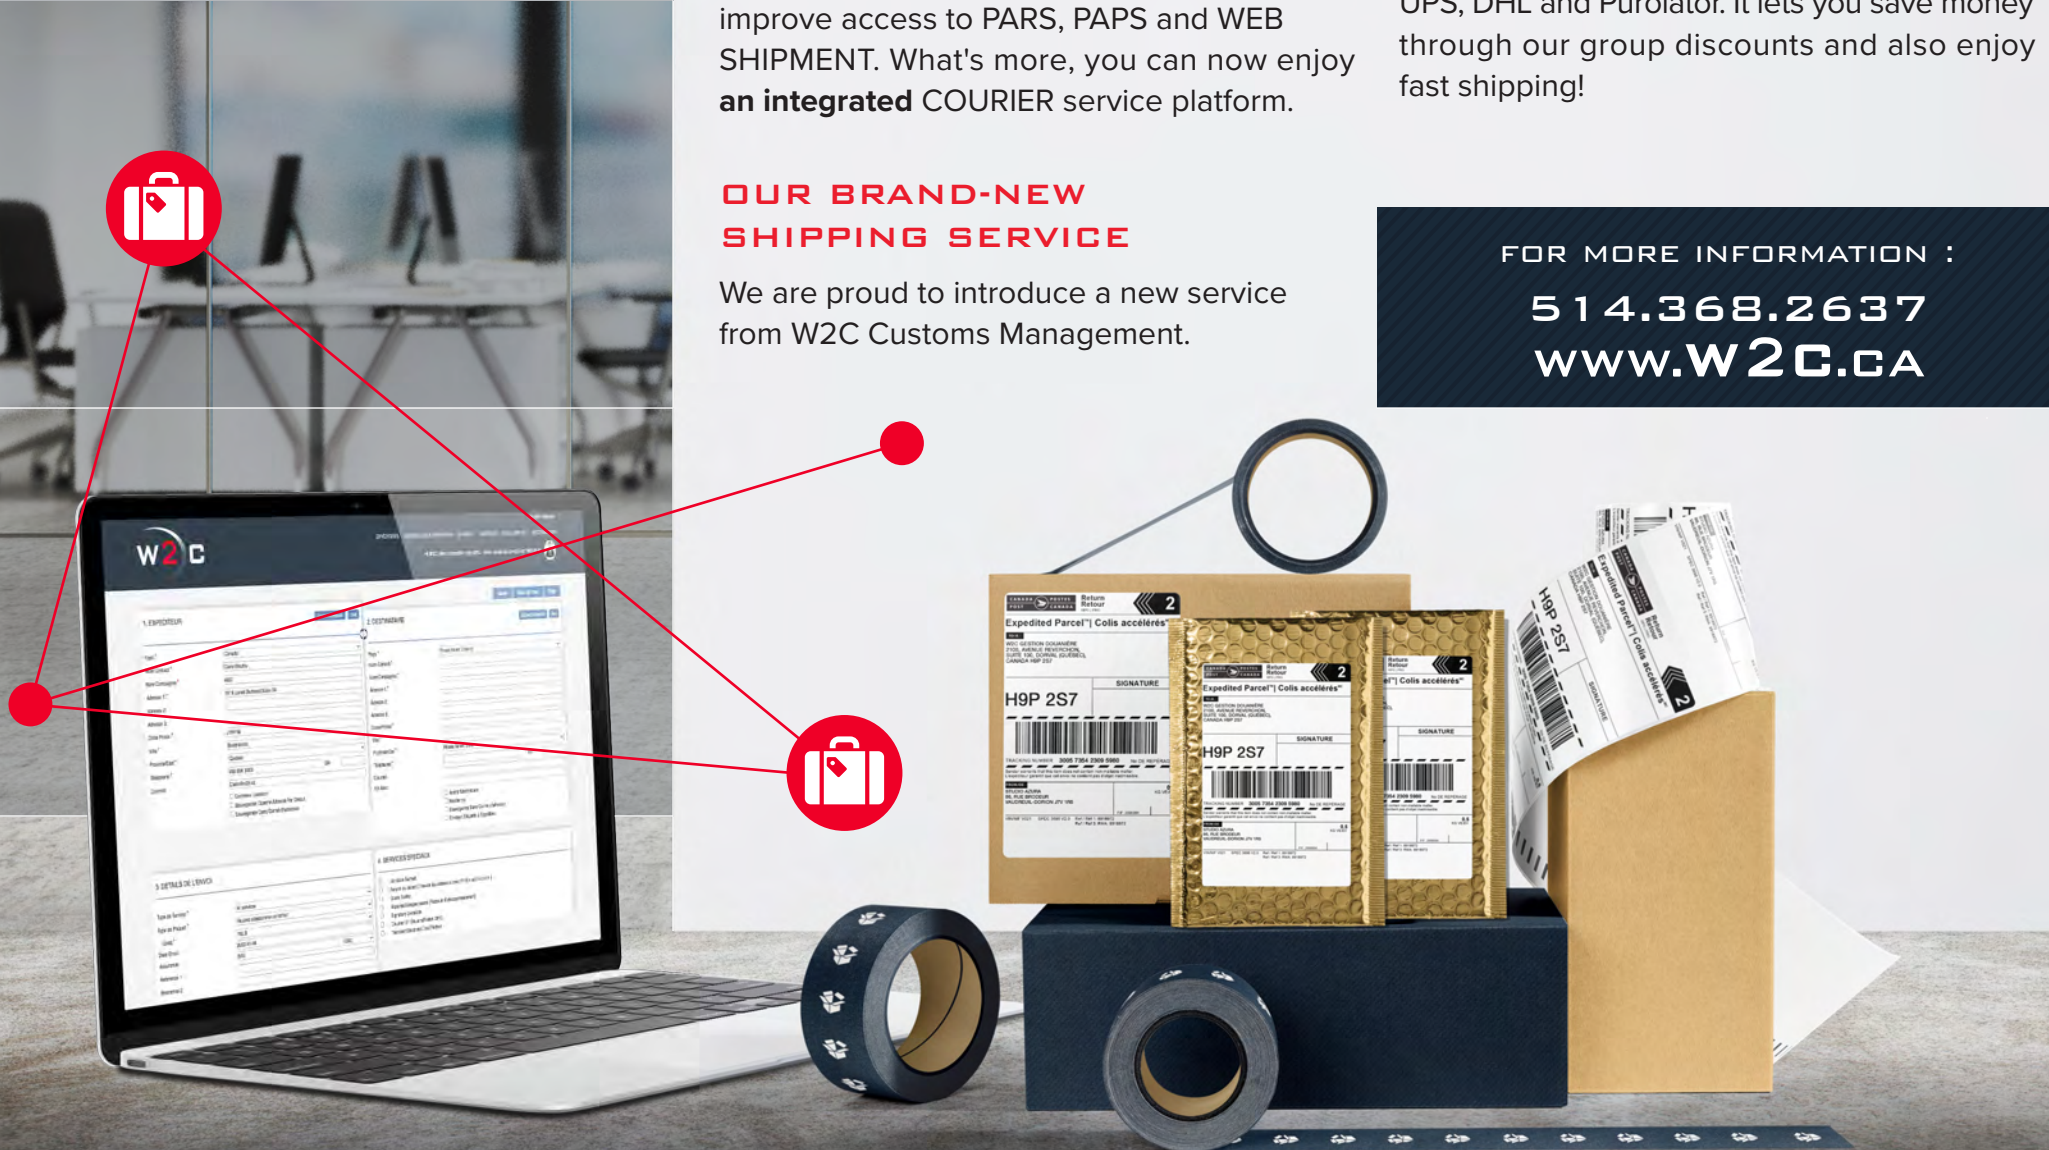

Access to the W2C integrated courier service platform allows you to compare rates from different courier services including FedEx, UPS, DHL and Purolator. It lets you save money through our group discounts and also enjoy fast shipping!

OUR BRAND-NEW SHIPPING SERVICE

We are proud to introduce a new service from W2C Customs Management.

FOR MORE INFORMATION :

WWW.W2C.CA

HOW DOES IT WORK?

Just enter your pickup and delivery addresses and the system will give you access to the rates of each courier service as well as the delivery times. Next, select the service and price that suits you the best.

The system will automatically generate the label for each shipment and the selected carrier will pick up and deliver it, in Canada or abroad, based on the instructions you have entered in the W2C courier system.

W2C produces a single invoice for all your shipments – including all selected couriers.

THE W2C COURIER SERVICE PROVIDES MANY BENEFITS FOR OUR CLIENTS!

- Multi-user access for all employees in your company.
- You save even more money thanks to our purchasing volume.
- You get real-time access to instant rates from different carriers.
- Our customer service team is always available to answer your questions.
- You can enjoy the convenience of tracking all your shipments in the same place.
- We produce a single invoice for all your shipments, regardless of the carrier.
